

Logistics Note

The event will take place in Building 309 on Governors Island, located at 309 Clayton Rd. The building is a former chapel. This newly renovated event space will be the venue for the Exchange's Climate Week events on Governors Island. It occupies the east side of Governors Island, facing Buttermilk Channel and Brooklyn.

Ferries operated by the Trust for Governors Island run daily from the Battery Maritime Building, located at 10 South Street in Lower Manhattan. The ferry arrives at Soissons Landing, which is a 10-12-minute walk via Evans, Andes and Comfort roads to the Building 309. The fee for this ferry will be waived during Climate Week. You can pick up for free ferry pass at the Battery Maritime Building when you arrive to take the ferry.

In addition, NYC Ferry, the City's public ferry service, also serves Governors Island daily year-round, with stops on the Lower East Side, Wall Street, and along the Brooklyn waterfront. Yankee Landing, located at the district's south corner, is the current entry point for visitors arriving from Brooklyn. Please note that because these ferries are not operated by The Trust for Governors Island, the fee will not be waived.

More details and ferry schedules can be found at [the Governors Island Website](#).
