

Coalition of Finance Ministers for Climate Action¹ Meeting of the Sherpas November 18-19, 2019, London, United Kingdom MEETING OVERVIEW

Following the launch in April 2019, fifty-one Finance Ministers to date have endorsed the Helsinki Principles and become members of the Coalition of Finance Ministers for Climate Action. On October 19, 2019 in Washington D.C, Ministers reviewed the "Overview of the Santiago Action Plan", prepared by the Sherpas. Endorsement of the overview and the growing membership are important signals ahead of the Madrid Conference of Parties (COP25) in December, where the Santiago Action Plan will be presented and launched.

The framework for the Coalition to move forward is in place, with an expanding membership, basic governance structure, support of institutional partners, aspirational goals articulated in the Helsinki Principles, and the Santiago Action Plan that lays out the Coalition's 2020 work priorities. Ensuring efficient work arrangements and sufficient member involvement in each work stream will be key to making progress on the Santiago Action Plan.

With this background, the objectives of the Sherpa meeting in London are to: (1) set out member and institutional partner activities arranged by Helsinki Principle under the Santiago Action Plan, (2) clarify work arrangements to facilitate effective and full participation of members and institutions, and (3) prepare for the Madrid COP25 in December, including the conclusion of the Santiago Action Plan for launch and drafting of a joint ministerial declaration.

The main agenda items of the London meeting include:

- i) Welcoming new members and introducing the Coalition's work.
- ii) Outlining activities under each of the Helsinki Principle work streams for the next 12 months to be undertaken by members and institutional partners in support of the Santiago Action Plan.
- iii) Agreeing on work arrangements with a view to:
 - a. Strengthening work streams and engaging new members.
 - b. Clarifying the role of institutional partners in each workstream.
 - c. Identifying outputs and activities with expected delivery dates.
- iv) Preparing for the December 9, 2019 launch of the Santiago Action Plan at the Ministerial Meeting in Madrid as part of COP25.
- v) Preparing a Joint Ministerial Statement to be discussed and endorsed by Finance Ministers at the COP25.
- vi) Operationalizing the Santiago Action Plan for the next 12 months, including setting targets and deliverables for the Ministerial meeting in April (Washington D.C.) and linking the work program to the COP26 process.

Annexes:

- Sherpa Meeting Agenda (draft the final version will be distributed closer to the day)
- Overview of Santiago Action Plan
- Elements of Santiago Action Plan
- Secretariat's Summary of Ministerial Meeting (October 19, 2019)
- Sherpa Meeting Logistics Note
